# We have moved, come and visit us.

Now's a great time to come and visit us in our new office in Frimley where we can showcase to you the latest technology in our Customer Experience Centre.

This will be a great opportunity to go over our latest offerings as well as discuss any up and coming requirements you have.

The big  
Question

## Why move and what can you expect?

On site, our new premises has a warehouse twice the size of our previous address and offers dedicated zones for our engineers to build, test and fix.

With a newly fitted out open plan office space and Customer Experience Centre the culture is even more open with ideas. We are now more effective at developing our skill set as a company and showcasing how we deliver our installations.
